

Wahyu Adji Agus Saputra

Undergraduate Mechatronics Student

+6288233719636 | ranggaldrian143@gmail.com

Profil

A highly motivated Mechatronics Engineering student from Yogyakarta State University with a proven track record of excellence in competitive robotics and a deep passion for machine learning and software development. Combines hands-on hardware programming experience with a strong foundation in AI/ML to build end-to-end intelligent systems.

Skills

- Languages: C++, C, Python, C#
- Concepts: Machine Learning, Deep Learning, Data Structures, Algorithms, IoT, Control Systems
- **Tools & Technologies:** Git, GitHub, STM32CubeMX, Arduino, Docker, Looker Studio

Experience

Coordinator of Motion Programmer Division

2022 – 2023

- Led the motion programming division, developing a one-year strategic roadmap and setting key project milestones.
- Mentored and trained junior members on STM32 programming and control logic, fostering team growth and skill development.
- Coordinated with mechanical and electrical divisions to ensure seamless hardware-software integration.
- Responsible for low-level programming of robot movements, sensor data parsing (RX/TX), and hardware configuration.

Awards & Honor

- **2nd Place Winner (Runner-Up), National Level** | Indonesian Robot Contest (KRI) 2024
- **2nd Place Winner, Regional Level** | Indonesian Robot Contest (KRI) 2024
- **1st Place Winner (Champion), Regional Level** | Indonesian Robot Contest (KRI) 2023
- **2nd Place Winner, National Level** | Indonesian Robot Contest (KRI) 2023

Certifications

Issued by Dicoding

- Building Machine Learning Systems
- Applied Machine Learning
- Deep Learning Fundamentals
- Data Science Learning Path
- Machine Learning for Beginners
- Data Visualization
- Data Analyst Learning Path
- Git and GitHub Fundamentals
- Programming Basics for Software Development
